U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number: 57787-27

Date of Issuance: JUN 30 2011

Term of Issuance: Unconditional

Name of Pesticide Product: PROTEAM SUPREME

NOTICE OF PESTICIDE:
Registration
[x] Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Janice Bell
Haviland Consumer Products, Inc.
421 Ann Street, NW
Grand Rapids, MI 49504

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/ reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to Boric Acid RED, the EPA has reregistered this product. This action is taken under the authority of section 4(g) (2) of the Federal Insecticide, Fungicide and Rodenticide Acts, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. The EPA may require submission of data at any time to maintain the registration of the subject product.

Signature of Approving Official: Ms. Jacqueline McParlane
Acting Product Manager Team-34
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date: JUN 30 2011

Please submit two (2) copies of your final printed label before distributing or selling the product bearing the labeling revisions. A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6 (e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have questions concerning this matter, please contact me at (703) 308-6416 or by email at campbellmcfarlane.jacqueline@epa.gov or contact Glen McLeod at (703)347-0181 or by email at mcleod.glen@epa.gov

Sincerely,

Jacqueline McFarlane

PROTEAM SUPREME

[Reduces eye and skin irritation.]
[Controls algae and improves filtration.]

ACTIVE INGREDIENT:
Sodium Tetraborate Pentahydrate.....99.5%
OTHER INGREDIENTS.....0.5%
TOTAL.....100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Chemtrec 1-800-424-9300. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Chemtrec 1-800-424-9300.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Chemtrec 1-800-424-9300.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See additional precautions on [back] [side] panel.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses). Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and using the toilet. Remove contaminated clothing and wash clothing before reuse.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ProTeam Supreme is specially formulated to enhance water quality by improving filtration and controlling algae. Use of this product promotes sparkling, clear water and reduces eye and skin irritation for swimmers.

Supreme provides long-lasting algae suppression, controlling all types of algae found in swimming pools, as well as aiding in the removal of existing algae stains.

- 1.) For initial application, introduce two pounds of **ProTeam Supreme** per each one thousand gallons of pool water by broadcasting the material over the surface area of the pool with a pump running. This initial treatment must be added in two doses with one half of the necessary amount being added in each application. For initial pH adjustment use $\frac{3}{4}$ pound ProTeam pH Down (Sodium Bisulfate) or 10 ounces of muriatic acid for each pound of **ProTeam Supreme**, mixing acid in a bucket of water, then add to pool.
- 2.) The pH of the pool water may rise as a normal reaction to the introduction of **ProTeam Supreme**. After a normal turnover of pool water adjust the pH to 7.4-7.6 using a reliable acid demand kit. **ProTeam Supreme** is compatible with all materials normally used in swimming pool maintenance.
- 3.) Test the pool water a minimum once a week or as normally required by local Health Authority Regulations. Sanitizer levels need to be maintained at levels indicated on the sanitizer label. The **ProTeam Supreme** residual must be tested at least once each month and must be maintained at 30-50 ppm. Your ProTeam Dealer can provide this test and water analysis.
- 4.) **ProTeam Supreme** is lost from water only through filter backwash and splash-out.

WINTERIZATION

A pool that has been treated with **ProTeam Supreme** will remain clear and be beautiful throughout the winter months with little or no effort. The pool must be tested to assure that an adequate level of **ProTeam Supreme** is present before shut down. See your ProTeam Dealer for freeze protection information.

STORAGE AND DISPOSAL

(Household / Residential Use)

Nonrefillable container. Do not reuse or refill this container. Securely wrap original container in several layers of newspaper and discard in trash or offer for recycling if available.

(Commercial / Industrial / Institutional Use)

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original container in a locked area inaccessible to children or pets. Storage areas should be cool and dry. Keep container tightly closed.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
